### When innovation brings you **prevention!**

The next step in the evolution of vehicle safety can be held in the palm of the drivers' hand. For over 20 years, **LifeHammer** has provided motorists with a peace of mind that can only come from knowing that escape is easily within reach in an emergency. The double-sided steel hammer heads shatter side and rear windows, while a safely concealed razor-sharp blade cuts easily through jammed safety belts. Perfect for personal vehicles and easily imprinted with a company logo, **LifeHammer** will prove to be a fine choice for any company that cares about their employees and business partners in and out of the office.

Suitable for recognition, incentive, and all markets. Excellent for public and safety organizations as well as insurance, automotive, and utility fleet industries.

## When innovation brings you awareness!

Acclaimed through the US for its accuracy, **LegalLimit** is the newest trend in compact keychain alcohol indicator to fight against drunk driving. Cautiously engineered to indicate the amount of alcohol in the body, this 100% water proof non perishable life saving device is designed to help friend and family to stop any intoxicated buddies from getting behind the wheel. Get their key and convince them why they can not drive. It may also save a life... or 2 or 3!

**LegalLimit** is the ideal promotional product for those who wish to stop their friends or family from driving intoxicated. It has been developed to make people help reduce fatalities and injuries caused by DUI. **LegalLimit** is a proactive and innovative safety concept that can save a friend's life. It is simply the best marketing tool in the fight against drunk driving!

Alcohol impairs judgment - Never test yourself. Get the key from your buddy. Test him with **LegalLimit** Breathscan. If color will turn from yellow to blue green cast, this person should not drive. Keep the key and find a designated driver or call a taxi. And save a buddy's life! Conveniently kept on a keychain, this single-use breathalyzer can be refilled upon request.

Suitable for all markets. Excellent for public and safety organizations as well as insurance, automotive, marine, fundraising, and fleet industries.
